SlimBox® 24-Fiber Wall Mount Module
Internal Wall Mount Module for Pre-terminated FTTx Network

Wall Enclosure with 24 SC UPC ports, two MTP ports and two 12-fiber MTP/SCU fanouts

Features and Benefits

- Six ports of entry into the enclosure
- Handles 3.0 mm, 2.0 mm and 1.6 mm slack storage of assemblies
- Color-coded adapters provide easy fiber identification
  - SCA is simplex SC APC (green)
  - SCU is simplex SC UPC (blue)

- Compact package
- RoHS-compliant; free from heavy metals and environmentally friendly

Product Description

The SlimBox 24-Fiber Wall Mount Module is specifically designed for indoor FTTx networks. This enclosure accommodates and protects optical splices between input cables and internal, indoor distribution cables for both blown fiber and molding connections. The module is held in place with cable ties from three locations on the side and two locations from the base of the enclosure. While the entry points on the enclosure base fit standard electrical outlets, the SC simplex or duplex LC adapters snap easily into the designated adapter ports. Available in two versions (with or without adapters), the SlimBox Module's dimensions are 12" x 7.28" x 3.54".

Wall Enclosure with 10 splice trays.

Performance Specifications

Dimensions	12" H x 7.28" W x 3.54" D
Weight	1.61 kg
Color	Grey (RAL 7035)
Storage / Operating Temperature	-40 to +85 °C
Feeder / Splitter Input Capacity	27 SC APC or 54 LC APC
Distribution Output Capacity	24 SC UPC/APC or 48 LC UPC/APC
